

Harlan J. Berk, Ltd.

(815) 723-1228

2417 West Jefferson Street Joliet, Illinois 60435

(815) 723-1238

45th BUY or BID SALE

The Closing Date is October 21, 1986

VISA, MASTERCARD, and AMERICAN EXPRESS

ALL COINS
GUARANTEED GENUINE

WE STILL CHARGE
NO BUYERS FEE

Harlan J. Berk, Ltd. has presented an innovation in numismatics for some time now. The system is simple. When you want a coin in the sale, just bid the estimated price by phone or mail. We will send you the coin immediately. No waiting for the closing of the sale. Any and all coins not sold before the closing date will be sent to the highest bidder on October 21, 1986.

EXAMPLE — You bid estimate on a coin valued at \$100.00 and if your bid is the 1st to reach us, you will receive the coin immediately. If on the other hand, you bid \$75.00 on the same coin and are still the high bidder at the end of the sale, the coin will be mailed to you on the closing date, October 21, 1986.

If you are ever in the area, stop in and see us! We are only five minutes from Interstate I-55 or I-80. Of course, it's best to call first.

COINS AT FIXED PRICES

- FP 464. AEGINA Late 4th early 3rd Century B.C. Stater 11.93g SNG Lockett-1997 This coin is struck in ultra high relief with the obverse rising a full 4 mm above the surface of the planchet. Without a doubt this is one of the finest examples known of this issue EF with luster7000

FP 465. THURIUM 415 BC Distater 15.73g Noe-A2 At the time that Noe wrote his work on the Distaters of Thurium he knew of only one example of the 1st class of Distater Noe-A-2. This example which is in very poor condition is in the British Museum. In 1974 at the Munzen und Medallion and Bank Leu Sale of Greek coins a second specimen of A-2 with an olive wreath on the helmet appeared. It was Lot #70, and in fine condition it brought SFR 34,000 with commissions. Our example is by far the finest known and only the 3rd to come to light. Good VF9500

FP 466. AINOS 380/79-378/7 AD Tetradrachm 15.93g Star symbol May-391 Three recorded by May. A beautiful head of Hermes struck in high relief is on the obverse of this coin. While facing heads were done throughout the Greek series, doing them well was particularly difficult. While some of the facing heads of Ainos are poorly executed with the eyes drifting off in illogical directions, the facing head we offer depicts a Hermes with a serene, god-like expression. One of the masterpieces of Greek art. EF/VF14500

FP 467. SICULO-PUNIC 320 BC Tetradrachm Jenkins-272 Obv-58/R x-226 17.11g The obverse of this coin depicts the head of Dido wearing a tiara with stiff radiating pleats and a helmet-like visor in front. The reverse shows a lion walking right with his mane bristling and a palmtree in the background. The legend in the exergue translates to "of the people of the camp". The obverse of this coin is totally unique in Greek numismatics. In other words, the tiara of this type worn by Dido is unknown anywhere else. It is a truly wonderfully creative piece of work; Punic in nature but probably executed by a brilliant Greek die-cutter. Only eleven specimens of this coin were known to Jenkins in 1977. Now we would estimate the population at 13. EF29000

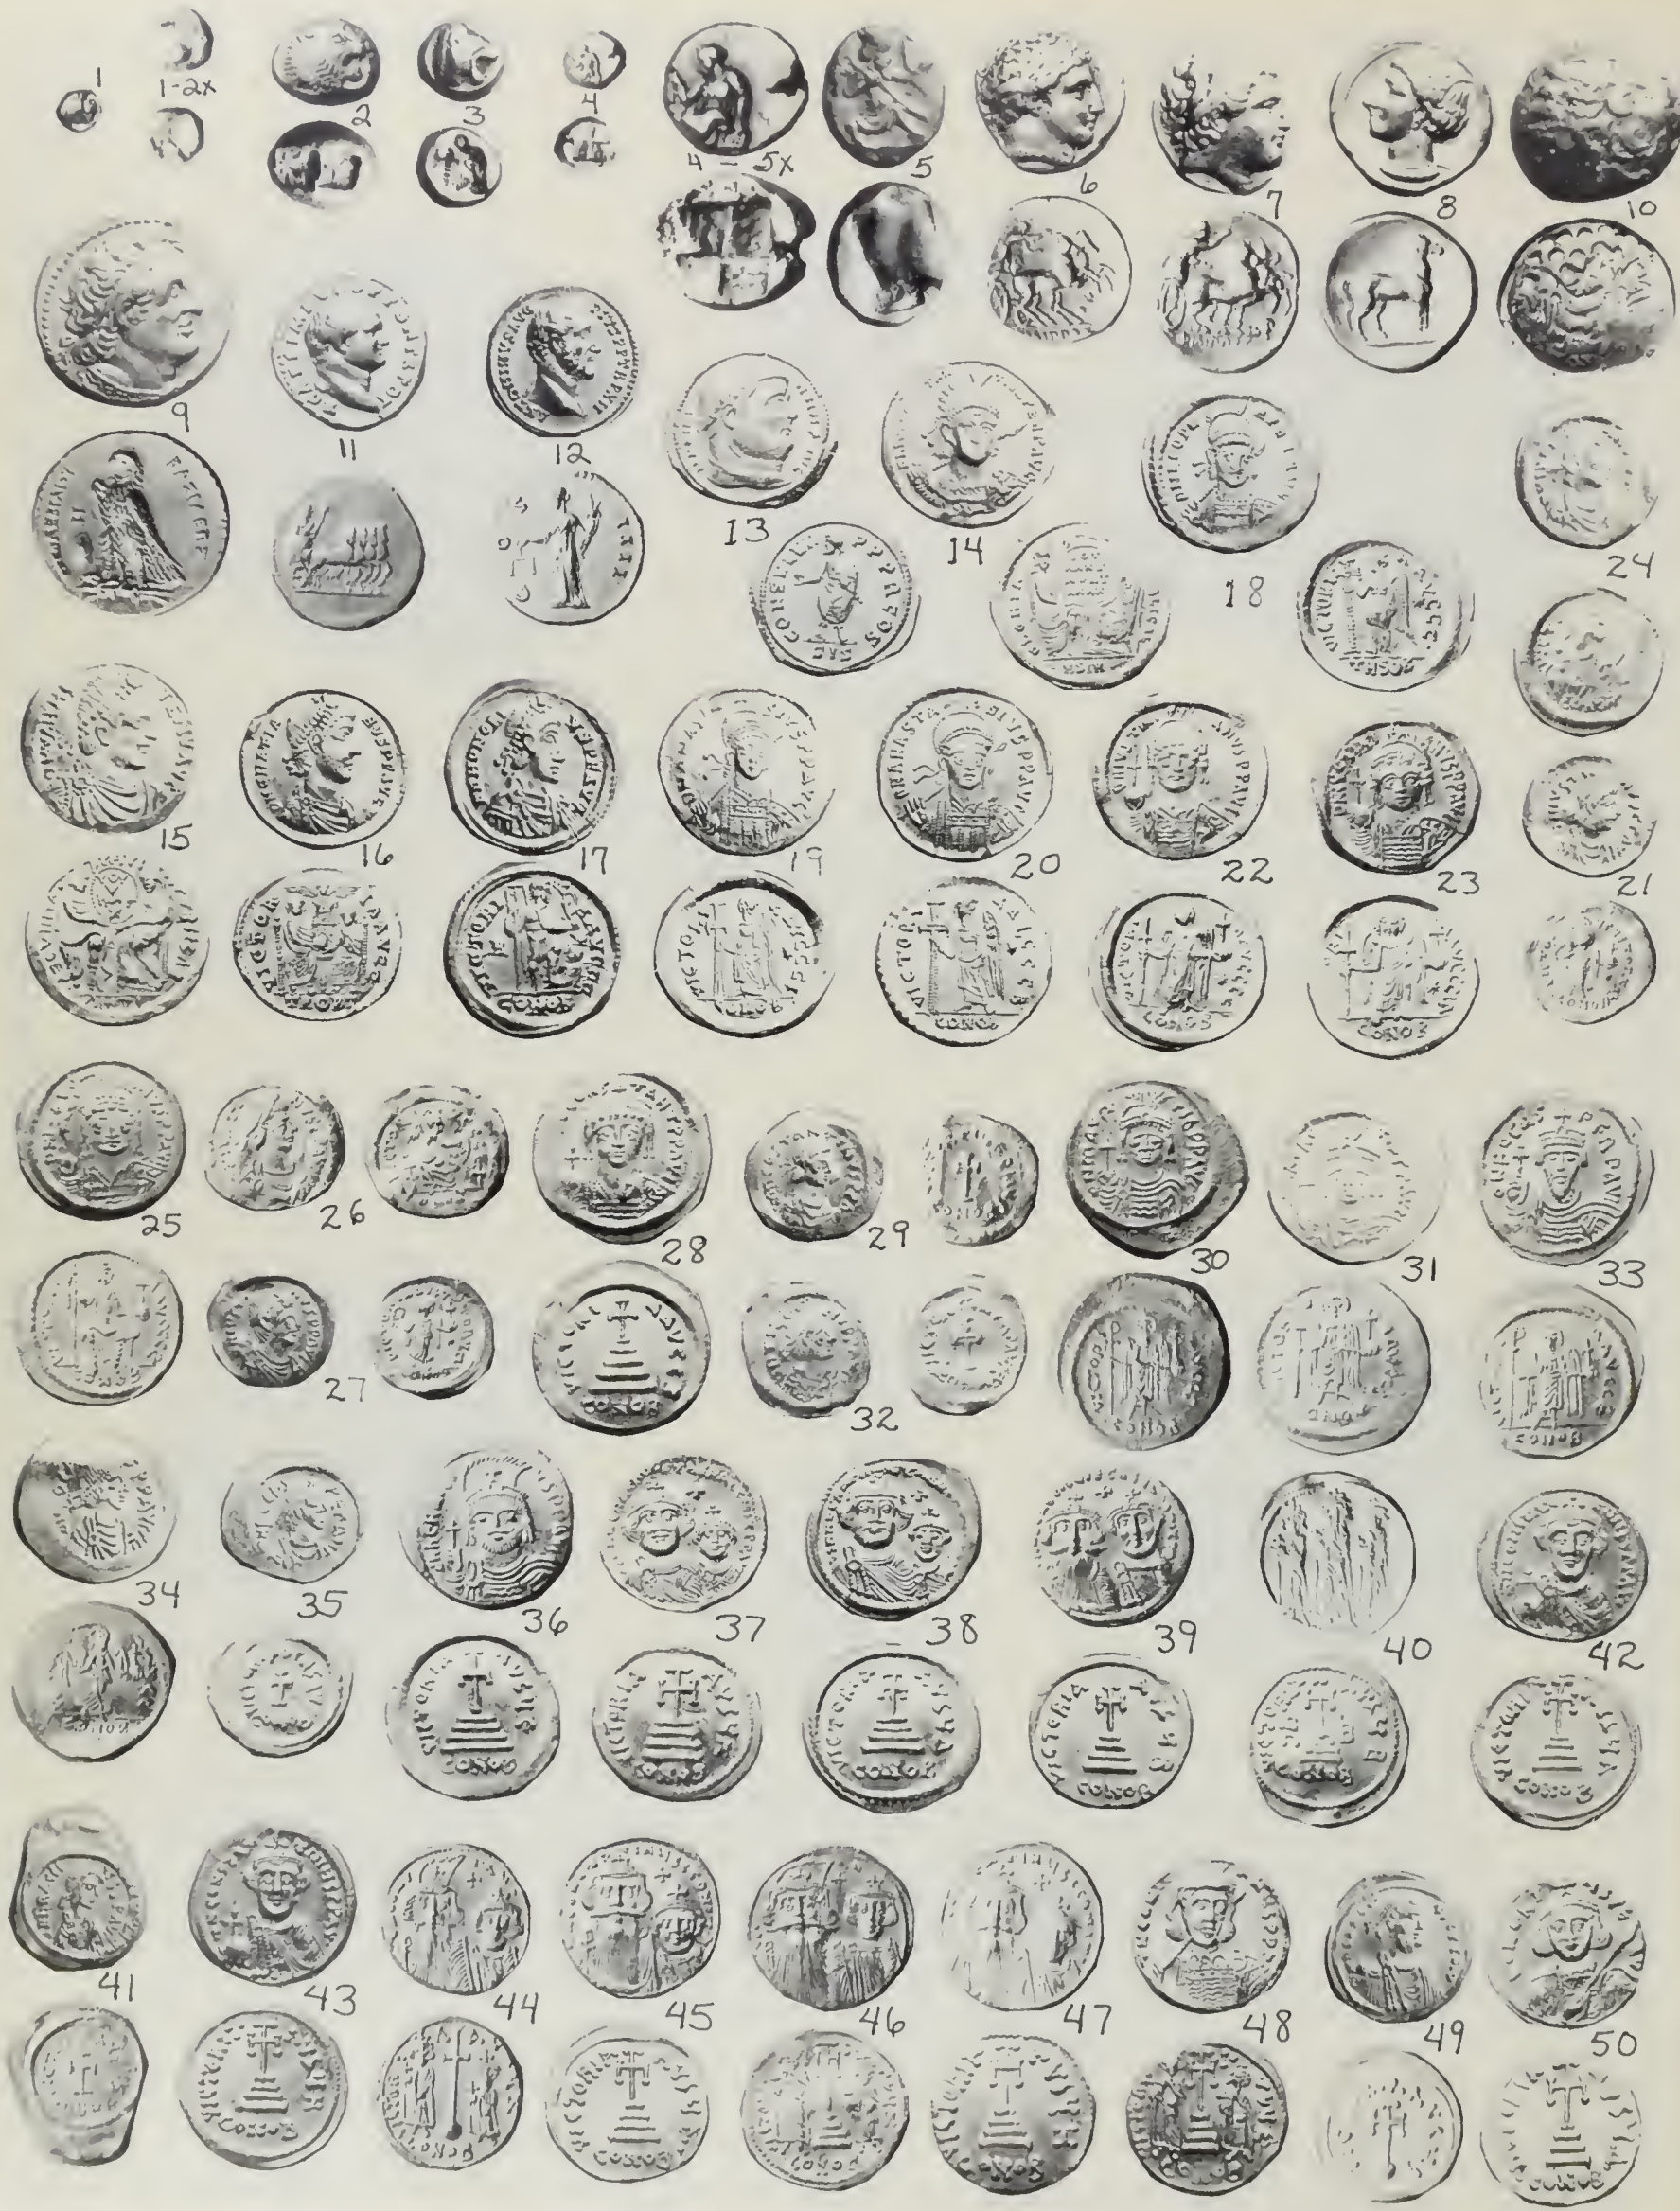

FP 468. PYRRHUS EPRUS 295-272 BC Didrachm S-1989 8.21g The obverse of this coin depicts a powerful head of Achilles with a crested helmet adorned by a griffin. The reverse has the mother of Achilles, Thetis, seated on a hippocamp contemplating a bronze shield made for her son by Hepaestus, Pyrrhus, King of Epirus, who was the cousin of Alexander III the Great. While he was a great general, his attempt at conquering the world failed. The famous term "Pyrrhic Victory" comes from Pyrrhus's victory over the Romans at Heraclea in 280 BC that was so costly to him, that he could not continue to fight, his troops having been decimated by his victory. The Rx of this coin appears not only throughout the modern Greek coin series, but served as the model for Charles E. Barber and George T. Morgan when they designed the Panama-Pacific Exposition 2½ Dollar gold piece in 1915. Very Rare. VF7000

FP 469. URANIUS ANTONINUS 253-254 AD Gold Aureus 5.72g RIC-4 Emisa Mint Syria. Uranius Antoninus was an obscure usurper of whom little is known. As pointed out in "Wealth of the Ancient World", sometimes usurpations were not rebellions, but gave a particular city, such as Emisa, a local emperor for personal leadership as there was probably little chance that the true emperor, Trebonianus Gallus in this case, might ever come to a frontier city to rally the troops. Aurei of Uranius Antoninus are considered one of the classic rarities of the Roman series as probably less than 25 exist. Near Mint State17000

FP 470. CONSTANTINE I 307-337 AD 1½ Gold Solidi 5.20g Nicomedia Mint RIC-100var. This small medallion exists for Thessalonica but is not known for Nicomedia other than this presently unique piece. The reverse EQVIS ROMANVS which depicts the emperor on horseback with a raised right hand has puzzled scholars for many years. One opinion is that the legend refers to Constantine as *Prince of Youth and Prince of the Equestrian Order*, while Alföldi says "this refers to Constantine's experiment of reorganizing the class of equities at Roma, restricting it to Rome". By the way EQVIS stands for horseman or knight. This is an extremely important numismatic item. Near Mint State12000
